

# EASY INTEGRATION WITH PLATFORMS AND MARKETPLACES

## Quick and simple integration

Connect our shipping platform to your Shopify store to automatically import all your shipment details, including customs data.

Use our platform to select from our e-PAQ range of delivery services and print your labels.

## Sell on more channels

Through one Asendia platform you can start selling on dozens of marketplaces worldwide, with Asendia handling all shipments seamlessly.

## A range of international delivery services designed for e-tailers of all sizes

**e-PAQ Standard**

**e-PAQ Plus**

**e-PAQ Select**

### We handle the export logistics

Once you've labelled your parcels, we receive them at our international distribution centre at Heathrow and handle the export logistics.

Once imported and customs-cleared, parcels are handed to our final-mile delivery partners.

National postal services

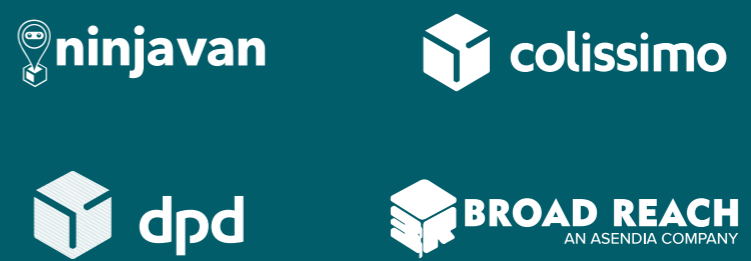

Tracked postal services

Parcel specialists with end-to-end tracking and localised features
